

Overtake the ordinary

Drive beyond the ordinary in the new TUCSON, combining a trend-setting design with advanced technology to uplift your experience.

Dynamism that exudes boldness

Behold, the new TUCSON's evolved signature parametric jewel design.

Here to showcase a more prominent and dynamic character than ever before.

Exterior

Parametric Jewel Hidden Signature Lamps

Reject the ordinary with eye-catching jewel-like elements of the front lamps as well as around the sides - boldly upgraded to allow you to stand out from the crowd.

Panoramic Sunroof

Parametric Jewel Surfaces

Interior

The cabin's wide horizontal design wraps around the interior, enveloping the passengers with a seamless architecture that integrates technology and style.

Wrap-Around Architecture Design

Ambient Mood Lamp / Multi-tray

Floating-type Console

Panoramic Curved Display 12.3-inch (Cluster) + 12.3-inch

Make room for more. Its best-in-class cargo space and roomy interior support various lifestyles and activities, offering more versatility than ever.

1st & 2nd Row Seat

Integrated Memory Seat

Walk-In-Device (Passenger)

Standard

6:4 Folding

Full Folding

Convenience

A reinvented layout with a host of intuitive technologies that enable an effortless and convenient on-the-road experience.

Wireless Power Charger (WPC)

12-inch Head-up Display (HUD)

Column-type Shift by Wire (SBW)

Performance

Equipped with next-generation powertrains, ensuring top-tier performance and optimal solutions for various driving scenarios.

Smartstream Gasoline 180 Maximum Power 1.6 T-GDI Engine 180 PS/5,500 rpm 27.0 Maximum Torque kgf·m/1,500~4,500 rpm

4WD HTRAC / Terrain Mode (Sand, Mud, Snow)

TUCSON AWD provides optimal driving performance through actively distributing driving force to the front and rear wheels according to various driving situations.

Safety

The new TUCSON is packed with reliable features to protect you from the unexpected and ensure you leave no one behind.

Blind-Spot View Monitor (BVM)

6 Airbags

Surround View Monitor (SVM)

Rear Occupant Alert (ROA)

Hyundai SmartSense

Forward Collision-Avoidance Assist (FCA, Junction Turning)

Alerts the driver if the vehicle ahead is slowing down too quickly or if there is the potential for a forward collision with stationary vehicles, pedestrians, cyclists ahead, or approaching vehicles on the road, and activates the brakes in the event of an impending collision. Forward Collision-Avoidance Assist also brakes automatically to avoid an impending collision with vehicles or cyclists ahead on the road or approaching from either side while making a left turn at an intersection.

Lane Following Assist (LFA)

Lane Following Assist helps center the vehicle in the lane.

Blind-Spot Collision-Avoidance Assist (BCA)

Blind-Spot Collision-Avoidance Assist (BCA) warns you if there is a risk of collision with a rear side vehicle in the blind-spot while changing lanes. When forward exiting a parallel-parking spot, if there is a risk of collision with a vehicle approaching from behind, it automatically assists with emergency braking.

Lane Keeping Assist (LKA)

If driving above a certain speed and the driver leaves a lane without the turn signal switch being operated, it provides a warning. When a lane departure is detected, it automatically assists with steering to help prevent leaving the lane.

- * Advanced Driver Assistance Systems (ADAS) is designed to provide assistance with the operation of a vehicle, drivers must drive with caution at all times.
- * Functions may not operate depending on the surroundings and driving conditions. Refer to the instruction manual for details.
- *Actual specifications may vary depending on the trim, powertrain and specifications selected.

^{*}Advanced Driver Assistance Systems (ADAS) is designed to provide assistance with the operation of a vehicle, drivers must drive with caution at all times.

^{*} Functions may not operate depending on the surroundings and driving conditions. Refer to the instruction manual for details.

^{19 *} Actual specifications may vary depending on the trim, powertrain and specifications selected.

Smart Cruise Control (SCC)

Smart Cruise Control (SCC) helps maintain distance from the front vehicle and drive at a speed set by the driver.

Automatically stops when the front vehicle stops and automatically starts when the front vehicle departs within a short time.

Parking Collision Avoidance Assist (PCA)

Reverse Parking Collision Avoidance Assist (PCA) provides a warning if there is a risk of collision with a rear object while reversing. After the warning, if the risk of collision increases, it automatically assists with emergency braking.

Forward/Side/Reverse Parking Distance Warning (PDW)

Forward/Side/Reverse Parking Distance Warning (PDW) warns against collisions with objects around the vehicle at low speeds.

- *Advanced Driver Assistance Systems (ADAS) is designed to provide assistance with the operation of a vehicle, drivers must drive with caution at all times.
