Beyond electric

The new Hyundai IONIQ 6 redefines electric mobility with its aerodynamic streamlined silhouette, cocoon-shaped interior, and future-driven features. It's everything an electric vehicle should be and more.

Electrified streamliner

Aesthetic and function blend harmoniously in the streamlined silhouette of IONIQ 6. The single-curved aerodynamic design minimizes air resistance; leading to smooth and dynamic driving.

Parametric Pixel LED Headlamps

Hyundai Emblem

20" Alloy Wheels

Parametric Pixel High-Mounted Stop Lamp (HMSL)

Mindful cocoon

IONIQ 6's cocoon-shaped interior accommodates a comfortable hideaway with ample space, user-considered architecture and features.

Interactive Pixel LED Lights

The 4-dot interactive pixel on the steering wheel and LED lights on crash pad indicate the car's diverse status (welcome/good-bye, voice recognition, etc).

Bridge-type Center Console

Thoughtful Storage Spaces

Button-less Slim Door with Ambient Lighting

The buttons from the front doors were moved to the center console to provide more room and storage. The dual-color ambient mood lights installed in the upper and lower door trims can be selected from 64 colors or six dual color themes to suit drivers' mood.

Motor

Permanent Magnet Synchronous 4WD

325 ps | 605 Nm

Battery

77.4kWh

Driving

Enjoy the driving performance of the IONIQ 6, designed to satisfy drivers' needs.

EV Performance Tune-Up Mode

Driver can adjust motor power, acceleration sensitivity, steering effort and driveline mode to meet their driving style.

Electric Active Sound Design (e-ASD)

The IONIQ 6 enhances driving pleasure by offering spaceship-like virtual driving sounds.

Speed Sync Lighting

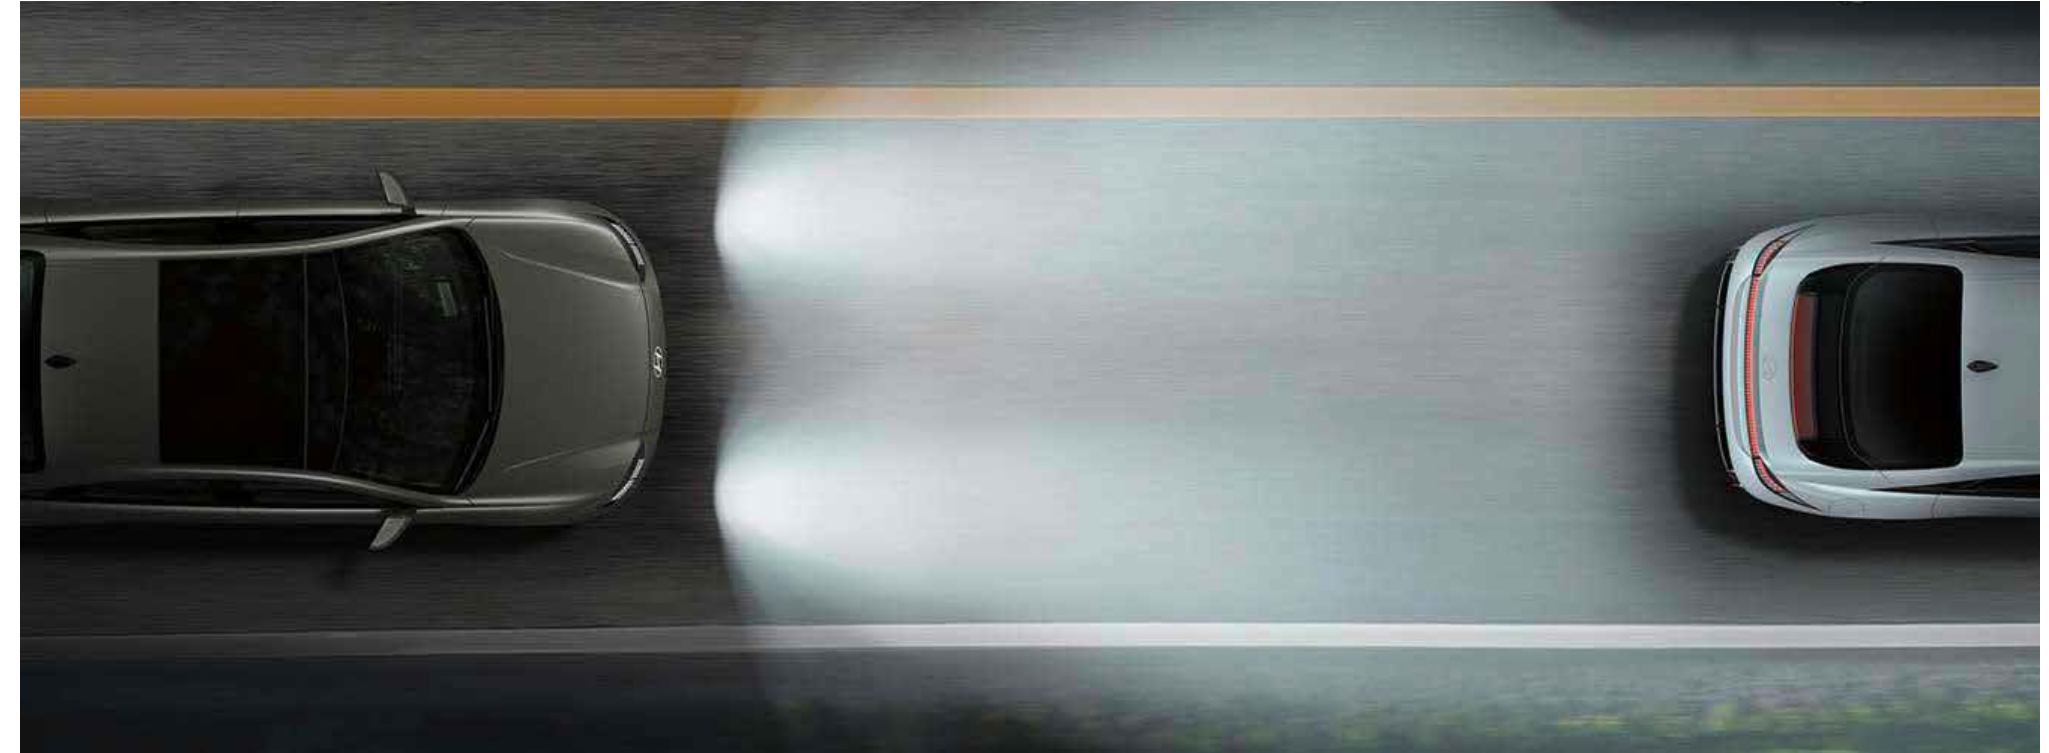

Brightness of front cabin lighting shifts from 10% at 30km/h to 100% at 100km/h, providing a dynamic driving experience.

Technology

The advanced technologies applied to the IONIQ 6 provide a variety of mobility experiences.

Relaxation Comfort Seat (1st row)

Intelligent Front-lighting System (IFS)

IFS partial light control function detects approaching vehicles and prevents dazzling effects from the high-beam for other drivers, while securing clear visibility for the driver.

Convenience

Experience IONIQ 6's wide range of convenience features.

Vehicle-to-Load (V2L)

V2L is the innovative feature of IONIQ 6 that allows you to plug in electrical devices and appliances into the power outlet from inside or outside of your car. General electric power (230V/120V) is provided inside and outside, and you can use 3.6kVA for 230V power devices and 1.9kVA for 120V power devices.

Outdoor Connector (Accessory Part)

Integrated Display

The 12.3" digital cluster and the 12.3" infotainment touchscreen are integrated into a single screen for a wider view with easy access to all essential information.

Premium BOSE™ Sound System

Ecologically responsible

Inspired by today's eco-conscious consumers, various sustainable materials are applied to the exterior and interior of IONIQ 6.

Eco-processed leather

The leather used for the seats was processed in an eco-friendly manner through the use of flaxseed oil extract.

BIO-TPO crash pad

Eco-friendly fibers from thread extracted from sugar cane are used in the crash pad.

BIO-paint

The dashboard and door trims are coated in a special BIO-paint made with rapeseed flowers and corn extracts.

BIO-PET yarn headlining

The material used for the headliner uses eco-friendly fibers extracted from sugar cane.

Recycled fisher-net carpet, etc.

The carpet and car mats in the IONIQ 6 are made from used fishnets.
