

STARIA

Step into the Space.

Prepare to embark on a new journey into the revolutionary space of STARIA, where you will travel in maximum comfort, enjoy the pleasure of face-to-face conversation, and spend life-enriching moments. In this space, the possibilities are as unlimited as the different lifestyles of its owners. It's one small step for STARIA and one giant leap in to the future of MPV mobility.

STARIA Premium

STARIA Premium stirs up the winds of change to open a new chapter in MPV driving. Inspired by the concept of a luxurious modern lounge, the futuristic styling commands instant attention. The lounge idea is fully realized the moment you step inside the multi-open space cabin, where you are greeted by a wonderful feeling of openness and smart technologies that make daily driving a lot easier.

Design in a new direction.

For a clean break with the past, STARIA designers adopted the one curve gesture to advance MPV design in an entirely new direction. Radiating simplicity and high-tech elegance, the futuristic silhouette provides clues to STARIA's cutting-edge technologies that make driving safer, more comfortable, and more convenient than ever before. STARIA Premium does more than establish a new design aesthetic: it redefines the luxury MPV segment to stand in a class of its own.

Full LED headlamps / Tinted brass chrome

Parametric pixel lights (LED rear combination lamp) / Tinted brass chrome

18" tinted brass alloy wheels

64-color ambient mood lamp

Whether you prefer an ambiance that is soft and gentle or lively and exciting, or somewhere in between, the shades of the mood lamp are user-customizable to suit personal preferences.

7

Seater

Upgrade to executive class with the luxuriously appointed 7-seater, and the miles will just fly by. The Premium relaxation seats are designed to relieve the pressure points of a conventional seat, so you feel as if you're seated in your favorite recliner in your living room.

Premium relaxation seat (one-touch relaxation mode)

At the touch of a button, the Premium relaxation seat redistributes your bodyweight to make you feel like you're floating in the air and it cares for you in all weather conditions with its 3-stage heating and ventilation functions. The 2-way backrest, 2-way seat cushion and 4-way legrest are individually adjustable to suit personal preferences.

Convenience at its best.

Crafted for peak comfort and convenience, STARIA Premium gets it right by surrounding you with a variety of smart features that provide unexpected delight. The sliding door and tailgate open and close automatically on your approach and departure. Long sliding seats provide an extra measure of flexibility for reconfiguring the cabin space while the BOSE premium sound system transforms STARIA Premium into a concert hall on wheels.

Smart power sliding door
No hands, no button pressing required. The smart door senses your presence and slides open automatically (as long as the smart key is on your person).

Long sliding seats*
Increasing the range of the to-and-fro motion of the rear seat makes it easy to create extra luggage space and helps passengers get in and out more easily.

* Premium 9-seater, 11-seater (wagon) only

Smart power tailgate (with auto-close function)
If you can't reach into your pocket for your smart key because your hands are full, STARIA's smart power tailgate does all the work for you by automatically opening as you approach the vehicle and automatically closing as you walk away.

BOSE premium sound system (Premium option)
Bose speakers create a truly immersive sound experience and include dynamic speed compensation to automatically calibrate speaker volume according to your driving speed.

Everyday is liberation day.

STARIA's smart features are truly liberating—they give you the freedom to focus on more important things. With the smart key or the smartphone app, STARIA's sliding doors open and close automatically. There's an abundance of storage space, and nice-to-have convenience features like the AVNT that serves as a surround-view monitor while parking or as a rear-view monitor to let you keep an eye on traffic behind you.

Smart power sliding door
Upon sensing the presence of the proximity key, the smart door automatically slides itself open after a pre-set interval—a very convenient feature when your hands are full.

Surround View Monitor
Surround View Monitor displays video of the situation around the vehicle for safe parking.

Smart power tailgate (with auto-close function)
With the smart key and new proximity sensor, tailgate operation is truly smart and hands-free: it opens and closes automatically without requiring any driver input whatsoever.

Hyundai SmartSense

Forward Collision-Avoidance Assist (FCA)

If there's a danger of a collision with a car, pedestrian, or cyclist, FCA provides an early warning and, if necessary, it automatically brakes for you. It also detects oncoming vehicles at intersections to promote safer left turns.

Lane Keeping Assist (LKA)

A front view camera detects lane markers and road edges helping prevent unintentional lane departures. When the vehicle strays from its lane (or road), the system sets off a visual and sound alarm and automatically steer the vehicle to prevent it from moving out of its lane (or road).

Blind-Spot Collision-Avoidance Assist (BCA)

When operating the turn signal switch to change lanes, if there is a risk of collision with a rear side vehicle, the system provides a warning. After the warning, if the risk of collision increases, the function automatically controls the vehicle to help avoid a collision. If exiting a parallel parking spot and there is a risk of collision with a rear side vehicle, the function automatically assists with emergency braking.

Safe Exit Assist (SEA)

When the occupant opens the door to exit the vehicle after a stop, if an approaching vehicle from the rear side is detected, the function provides a warning. The function also helps keep the rear door closed through operation of the power sliding door.

Smart Cruise Control (SCC)

Smart Cruise Control helps maintain distance from the vehicle ahead and drive at a speed, set by the driver.

Lane Following Assist (LFA)

A front camera tracks the lane markers and helps keep the vehicle safely centered within the lane.

Rear Cross-Traffic Collision-Avoidance Assist (RCCA)

RCCA warns of the approach of a vehicle across the rearward path when reversing and, if necessary, emergency braking is applied.

STARIA Premium
